

# MULTIPLE EXPOSURES

Newsletter of the **Urban Ecology Center Photo Club**

## NATURE PHOTOGRAPHY DAY

June 15, 2016 is the eleventh anniversary of Nature Photography Day. This day was designated by the North American Nature Photographers' Association (NANPA) to promote the enjoyment of nature photography, and to explain how images have been used to advance the cause of conservation and protect plants, wildlife, and landscapes locally and worldwide. Since 2006, people throughout the world have discovered numerous ways to observe and enjoy the day. NANPA encourages people everywhere to enjoy the day by using a camera to explore the natural world. A backyard, park, or other place close by can be just right. Walking, hiking, and riding a bike to take photos are activities that don't lead to a carbon footprint. And fresh air can do wonders for the spirit!

### Please Join Us!

Our next meeting is **July 7th**, 6:30PM to 9:00PM in the Community Room of the Urban Ecology Center at 1500 East Park Place in Milwaukee.
